

PARLAPALLI BALA BHARGAV

+91 8247097960 balabhargav960@gmail.com LinkedIn GitHub

OBJECTIVE

Motivated and detail-oriented professional with a strong foundation in Computer Science and Engineering. Skilled in programming, software development, and problem-solving, with a proven ability to quickly learn and adapt to new technologies and challenges.

EDUCATION

B.Tech in Computer Science , Kalasalingam Academy Of Research And Education, Virudhnagar CGPA: 7.71/10	2022 - 2026 TN, India
Intermediate (MPC) , Narayana Junior College Percentage: 87%	2020 - 2022 AP, India
Secondary School Certificate (SSC) , Nakshathra Em High School Percentage: 87%	2019 - 2020 AP, India

SKILLS

Programming Languages	Python, Java, SQL
Web Development	HTML, CSS, JavaScript
Developer Tools	Git/Github, Google Colab, VS Code
Academic Coursework	Data Structures, Operating Systems

EXPERIENCE

Speech Recognition Website (Academic Project)

- Developed a real-time speech-to-text web application using HTML, CSS, JavaScript, and the Web Speech API for accurate browser-based voice recognition.
- Implemented live voice transcription functionality without relying on third-party services or external APIs.
- Designed a responsive and interactive user interface to ensure seamless user experience and efficient real-time speech processing

PROJECTS

- Oral Cancer Detection System:** Developing a web-based AI system using Python, Flask, and PyTorch to detect oral cancer from clinical images using CNN models like EfficientNetV2 and ConvNeXt. Integrated Grad-CAM for explainable predictions, automated PDF report generation, and SMTP-based email delivery for patients and doctors.
- Real-Time Number Plate Scanner:** Developed a real-time number plate recognition system using Python, OpenCV, and EasyOCR to extract vehicle numbers from webcam and image inputs. Integrated Flask, Streamlit, and Backendless to match data with a database and generate downloadable PDF reports with vehicle details.

EXTRA-CURRICULAR ACTIVITIES

- Participated in multiple hackathons, showcasing innovative tech solutions under time constraints.
- Presented projects at Project Expos, demonstrating practical applications of AI and full-stack development.
